3 INTRODUCTION

3.1 The Fund

The Fund is an 'umbrella fund' and an open-ended investment fund company registered by way of continuation in Jersey under a certificate of continuance dated 31 March 2003 with limited liability under the Law as a no par value company. The Fund is authorised to issue 100 Management Shares and an unlimited number of Participating Shares. The nature of the right represented by Participating Shares in the Fund is that of a share of the appropriate class in the Fund.

3.2 Classes

Participating Shares in the Fund are designated into separate classes (each a **Class**) with different investment objectives and policies and/or different management fees. The specific investment objectives and policies and investment restrictions applicable to any class are set out in the Schedule(s) hereto.

3.3 Class Fund(s)

There is at present one class fund namely the USD Balanced Class Fund. Where further class funds are established (each a Class Fund), each **Class Fund** may have shares with different eligibility criteria, minimum investment levels, management fees, investment management fees and performance fees (among other things). The assets, income, earnings, liabilities, expenses and costs attributable to each Class Fund will, in accordance with the Articles, be applied to that Class Fund and kept separate and segregated from those attributable to the Fund and/or other Class Funds. Any assets, liabilities, income, earnings, costs and expenses not attributable to a particular Class Fund are allocated between all Class Funds in such manner, and on such bases, as the Manager or the Directors in their discretion shall deem fair and equitable (which bases may be varied from time to time).

The Fund is a single legal entity. As a result, although the assets, income, earnings, liabilities, expenses and costs attributable to each Class Fund will be segregated and kept separate from assets, income, earnings, liabilities, expenses and costs attributable to other Class Funds, in the event of the Fund not being able to meet its liabilities attributable to any particular Class Fund out of the assets of such Class Fund, the excess liabilities may have to be met out of the assets attributable to other Class Funds. Therefore, if as a result of a creditor proceeding against certain of the assets of the Fund or otherwise, a liability or expense would be borne in a different manner from that otherwise provided for in the Articles, or in any other circumstances where the Manager or the Directors may in their discretion deem it fair and equitable, the Manager may transfer any assets to and from any of the Class Fund(s).

4.1 Dealing Arrangements

Participating Shares of Classes can be subscribed for and redeemed on the Subscription Day for the Class (as specified in the relevant Schedule(s)) unless dealings have for any reason been suspended. The price at which Participating Shares of each Class are issued and redeemed will be calculated by reference to the Net Asset Value of the relevant Class Fund(s) as at the Valuation Point for that Class as specified in the relevant Schedule. The Manager may change the Valuation Point and the Subscription Day for any Class at its discretion provided that Shareholders will be given at least one month's prior notice of any change of a Subscription Day. The Manager may also determine that there shall be additional Subscription Days for any Class without giving notice to the Shareholders.

The Manager shall not be obliged to account to Shareholders for interest accruing on subscription or redemption proceeds held by the Manager in an internal operating account.

4.2 Availability of Prices

Prices of Participating Shares will be available from the Manager upon request. In addition Participating Share prices are also available through Bloomberg and Morningstar.

4.3 Calculation of the Subscription Price

The subscription price (the **Subscription Price**) of a Participating Share of any Class will be either:

- (a) the price per Participating Share at which the initial issue of Participating Shares of each Class shall be made, as determined by the Manager. Participating Shares may be offered at such initial price for such period (the **Initial Offering Period**) as the Manager may determine (which period may for the avoidance of doubt be shortened or extended at the discretion of the Manager) provided that subscription monies received by the Fund or its authorised agent during the Initial Offering Period may not be used to acquire any Investments (other than by way of being placed on current or deposit account) until expiry of the Initial Offering Period. The details of the prices per Participating Share at which an initial issue of Participating Shares is being offered and the length of any Initial Offering Period shall either be set out in the Schedule in respect of the relevant Class Fund or alternatively, will be available from the Manager on request; or
- (b) subsequent to an Initial Offering Period, ascertained as follows:

$$SP = \frac{NAV + DC}{N} \times (1+PC)$$

where:

SP equals the Subscription Price for each of such Participating Share;

NAV equals the Net Asset Value on a mid-market basis of the class of Participating Shares in accordance with the Articles on the relevant Subscription Day;

PC equals a preliminary charge for the account of the Manager calculated in accordance with the provisions of the Articles (as summarised in section 7 (Charges and Expenses – Manager – Preliminary Charge) of this Prospectus) and expressed as a percentage;

DC equals such provision (if any) for Duties and Charges (if any) as may be determined by the Directors (which provision may be different for different Class Funds); and

N equals the number of Participating Shares of that class then in issue or deemed to be in issue.

The Subscription Price of a Participating Share of any class shall be calculated at the Valuation Point for that class on any Subscription Day.

A dilution levy (see section 5.7 (Dilution Levy) of this Prospectus) may be payable in respect of the Subscription Price of a Participating Share in such amount as may be necessary to avoid any dilution of the Net Asset Value of that Class Fund.

The Subscription Price will be calculated to the nearest USD0.01 or GBP0.01 as appropriate.

4.4 Fixed Price Offers

Other than as set out in section 4.3 (Calculation of the Subscription Price) of this Prospectus, although there is provision in the Articles for there to be fixed price offers of Participating Shares the Directors have determined that no such offers will be made.

4.5 Applications

On receipt of applications, Participating Shares of any Class will be allotted on each Subscription Day for that Class at the Subscription Price (calculated as set out in section 4.3 (Calculation of Subscription Price) above. Applications must be made by completing an Application Form and submitting it to the Manager. Applications for each Class (together with subscription monies and any other information or declarations required by the Manager) must be received by the date and time on or prior to a Subscription Day specified in the relevant Schedule.

Applications may be accepted or rejected at the sole discretion of the Manager and, in particular, the Manager may require any applicant to provide further information and/or declarations. In particular, measures aimed towards the prevention of money laundering may require a detailed verification of the applicant's identity together with confirmation of the source of funds to be invested. By way of example, an individual may be required to produce a copy of a valid passport or identification card duly certified by a notary public. The copy of the passport/identity card must include the picture page and pages detailing the applicant's date and place of birth, nationality and the date and place of issue of the passport/identity card. Evidence of his/her permanent residential address, such as a utility bill or bank statement may also be required. In the case of corporate applicants, this may require production of a certified copy of the certificate of incorporation (and any change of name), memorandum and articles of association (or equivalent) and the names, occupations, dates of birth and residential and business addresses of all directors and shareholders. Further information may be required and may include a company registry search, providing confirmation that the body is not in the process of being dissolved, struck off, wound-up or terminated, a certified copy of the board resolution or other documentation evidencing the decision or authenticity to invest, the latest audited accounts and an original certified true copy of the authorized signatories list including specimen signatures and signing powers of the signatories.

The Manager reserves the right to request such information as the Manager deems necessary to verify the identity and/or address and/or status and/or source of funds and/or source of wealth of an applicant. In the event of delay or failure by the applicant to produce any information or declaration required for the verification purposes, the Manager may refuse to accept the application. If an Application Form or the subscription monies or any information or declarations required by the Manager are received after the time specified in the relevant Schedule for the receipt of applications, the Manager may defer allotment of Participating Shares until the next succeeding Subscription Day on which the conditions for allotment have been satisfied.

The minimum subscription amounts for Participating Shares of each Class are specified in the relevant Schedule. Notwithstanding any such minimum subscription amounts specified in the relevant Schedule, the Manager reserves the right in its sole discretion to accept a lower subscription amount for Participating Shares of each Class than is specified in the relevant Schedule.

Subscription monies are to be made by electronic payment in the currency of the relevant Class as detailed in the Application Form. Third party subscription payments in are not accepted and will be rejected.

Where an applicant is acting as a nominee or a trustee for another person/entity, the identity of the beneficiary must be established and in these cases appropriate documentary evidence to support the relationship and identification of all the relevant parties should be made available when requested by the Manager.

Persons or companies introducing investors to the Manager should fill in an intermediary certificate which will be provided by the Manager. In these cases the Manager may require certified copies of evidence held by such persons for its records.

The Manager may have to produce additional evidence of identity at any time, in order to meet local regulations. In this situation the Manager may have to revert to applicants or their introducer to acquire this evidence.

The Directors may in their discretion satisfy any application for Participating Shares by procuring the transfer to the applicant of fully paid Participating Shares of the relevant Class.

4.6 Share Certificates

Share certificates will not be issued in respect of any Class of Participating Shares. Title to Participating Shares will be evidenced by entries on the Register.

5 REDEMPTIONS, CONVERSIONS, SUSPENSIONS AND COMPULSORY REDEMPTION

5.1 Redemptions

Shareholders may redeem all or part of their holding of Participating Shares of any Class (subject to the minimum holding and redemption requirements referred to in the relevant Schedule) on any Subscription Day at the Redemption Price (calculated as set out in section 5.2 (Calculation of Redemption Price) below) by submitting a written redemption request to the Manager in such form as the Manager at its discretion may require. Notwithstanding any such minimum holding and redemption requirements set out in the relevant Schedule, the Manager reserves the right in its sole discretion to accept a redemption request by a Shareholder in respect of all or any part of its holding of Participating Shares of any Class.

The Manager may require proof of purchase, identification or such other verification as the Manager shall determine before processing a transaction. If the redemption request is received after such time (as specified in the relevant Schedule) the Manager may defer the redemption of such Participating Shares until the next succeeding Subscription Day.

A redemption request may not be withdrawn unless dealings are suspended after such request is received by the Manager. Redemptions may be satisfied by the Manager at its discretion by procuring the purchase of the Participating Shares to be redeemed at the Redemption Price.

Subject to any specific provision made in the relevant Schedule for a Class Fund, redemption proceeds will be paid within seven Business Days of the relevant Subscription Day in the currency in which the relevant Participating Shares are designated or such other currency as the Manager may at its discretion, at the request and cost of the applicant, agree, subject to there being, in the opinion of the Manager, satisfactory due diligence and know-your-client documentation. Payment will be electronically transmitted at the Shareholder's expense and made in accordance with instructions included on the Application Form or any amended instructions received and accepted by the Manager.

The Fund is not required to redeem on any single Subscription Day more than one eighth of the Participating Shares in issue or deemed to be in issue, or more than one eighth of the Participating Shares of any Class in issue or deemed to be in issue.

On any redemption the Directors shall have the power, with the sanction of a Special Resolution, or with the approval of the Custodian and the agreement of the applicant, to divide in specie the whole or any part of the assets of the Fund comprised in the Class Fund established for Participating Shares of the relevant Class and appropriate such assets in the satisfaction or part satisfaction of the redemption proceeds.

5.2 Calculation of Redemption Price

The redemption price (the **Redemption Price**) of a Participating Share of any Class shall be calculated at the Valuation Point for the relevant Subscription Day by:

- (a) ascertaining the Net Asset Value on a mid-market basis of the Class of Participating Shares in accordance with the Articles;
- (b) deducting therefrom such provision (if any) for Duties and Charges as may be determined by the Manager (which provision may be different for different Class Funds); and
- (c) dividing the sum resulting from (a) and (b) above by the number of Participating Shares of that Class then in issue or deemed to be in issue.

A dilution levy (see section 5.7 below (Dilution Levy)) may also be deducted in respect of the Redemption Price of a Participating Share in such amount as may be necessary to avoid any dilution of the Net Asset Value of that Class Fund.

The Redemption Price will be calculated to the nearest USD0.01 or GBP0.01 as appropriate.

5.3 Conversions

Subject to the provisions of the relevant Schedule and there being more than one Class Fund, Shareholders may convert all or part of their holding of Participating Shares of any Class in a Class Fund (the **First Class**) (subject to the minimum holding and conversion requirements referred to in the relevant Schedule hereto and any other restrictions imposed by the Directors) into Participating Shares of any class in another Class (the **Second Class**) on any Subscription Day for the First Class by submitting a written conversion request to the Manager in such form as the Manager may at its discretion require by the date and time specified in the relevant Schedule. Notwithstanding any such minimum holding and conversion requirements set out in the relevant Schedule, the Manager reserves the right in its sole discretion to accept a conversion request by a Shareholder in respect of all or any part of its holding of Participating Shares of any Class. The Manager may, at its discretion, require proof of purchase or identification before processing a transaction. If the conversion request is received after such time (as specified in the relevant Schedule), the Manager may defer the conversion of such Participating Shares until the next succeeding Subscription Day. A conversion request may not be withdrawn unless dealings are suspended after such request is received by the Manager. If the Subscription Days for the First Class and the Second Class do not fall on the same day, a valuation of the Net Asset Value of the Second Class shall be carried out on the Subscription Day for the First Class for the purposes of enabling conversions to take place. The number of Participating Shares of the Second Class to be allotted on conversion will be determined in accordance (or as nearly as may be in accordance) with the following formula:

$$N = \frac{F \times P \times C}{S}$$

where:

N is the number of Participating Shares of the Second Class to be allotted;

F is the number of Participating Shares of the First Class to be converted;

P is the Redemption Price per Participating Share of the First Class ruling on the relevant Subscription Day;

C is the current exchange rate (where applicable) determined by the Manager on the relevant Subscription Day as representing the effective rate of exchange applicable to the transfer of relevant assets between the relative Class or Class Funds, after adjusting such rate as may be necessary to reflect the effective costs of making such transfer;

S is the Subscription Price per Participating Share for the Second Class ruling on the relevant Subscription Day (but excluding any preliminary charge on the first conversion by such holder in any Accounting Period, except where the preliminary charge on the issue of Participating Shares of the First Class is less than that applicable on the issue of Participating Shares of the Second Class, in which case a preliminary charge equivalent to the difference will be levied), and the number of Participating Shares of the Second Class to be created or allotted shall be so allotted or created in respect of each of the Participating Shares of the First Class being converted in the proportion (or as nearly as may be in the proportion) N to F where N and F have the meanings ascribed to them above; provided always that the Directors may, at their absolute

discretion make such adjustments to the above conversion formula as they may consider appropriate to take account of any difference between the preliminary charge payable to the Manager in respect of the issue of Participating Shares of the First Class and the issue of Participating Shares of the Second Class.

If the Participating Shares of the First Class are designated in a currency other than that in which the Participating Shares of the Second Class are designated, on the relevant Subscription Day, the Manager will arrange for the sale of an amount equal to $F \times P$ (or such other amount of the currency in which the Participating Shares of the First Class are designated as the Manager considers to be appropriate in the circumstances) for the currency in which the Participating Shares of the Second Class are designated (the **Second Currency**). The Manager shall debit the Class Fund relating to the Participating Shares of the First Class with an amount equal to $F \times P$ and shall credit the Class Fund relating to the Participating Shares of the Second Class with the appropriate amount in the Second Currency.

Subject to the discretion of the Directors, the Manager may be paid out of the Class Fund relating to the Participating Shares of the Second Class an amount not greater than the preliminary charge to which it is entitled and which has been taken into account in calculating S.

Except as may be specified in this Prospectus, a Shareholder who exchanges Participating Shares in one Class or Class Fund for Participating Shares in another Class or Class Fund will not be given a right by law to reverse the transaction except as a new transaction.

5.4 Suspension of Dealings

The Manager may at any time, following consultation with the Custodian, declare a suspension of the valuation of the Net Asset Value of a Class of Participating Shares and of the issue, sale, purchase, redemption and conversion of Participating Shares of that Class for the whole or any part of a period during which:

- (a) a breakdown occurs in any of the means normally employed in ascertaining the value of the Investments comprised in the Class Fund established for that Class of Participating Shares; or
- (b) for any other reason, the value of a substantial part (in the opinion of the Manager) of the Investments comprised in the relevant Class Fund cannot reasonably be ascertained; or
- (c) circumstances exist as a result of which, in the opinion of the Manager, it is not reasonably practical for the Fund to realise or dispose of Investments comprised in the Class Fund established for that Class of Participating Shares or fairly to determine the Net Asset Value of the relevant Class of Participating Shares; or
- (d) the remittance of funds which will or may be involved in the realisation of, or in the payment for, Investments or the issue, sale, purchase or redemption of Participating Shares cannot, in the opinion of the Manager, be carried out without undue delay and at normal rates of exchange; or
- (e) in the opinion of the Manager, certified in writing, such a suspension is desirable in the interests of the Members.

A notice of any such suspension of dealings will be placed in an appropriate publication (such as the company website) by the Manager once dealings have been suspended and thereafter monthly during the period of suspension. The end of any such period of suspension will be similarly notified.

5.5 Compulsory Redemption

If it shall come to the notice of the Fund or the Manager that any Participating Shares are owned directly or beneficially either by:

- (a) any person in breach of any law or regulation of any country or governmental authority, by virtue of which such person is not qualified to hold such Participating Shares; or
- (b) any person who shall belong to or be comprised within any class of persons stipulated by the Manager as being ineligible to own Participating Shares; or
- (c) any person so as to cause the Fund to be in breach of any law or regulation of any country or governmental authority or so as to constitute fiscal tax or other pecuniary disadvantage to the Fund,

then the Manager may give notice to such person requiring him/her to transfer such Participating Shares to a person who is qualified or entitled to own the same or to give a request in writing for the redemption of such Participating Shares.

If any person upon whom such a notice is served does not, within 30 days after receipt of such notice, transfer his/her Participating Shares to a person qualified and entitled to own the same or establish to the satisfaction of the Manager (whose judgment shall be final and binding) that he/she is qualified and entitled to own the Participating Shares, he/she shall be deemed, upon the expiration of thirty days, to have given a request in writing for the redemption of all his/her Participating Shares.

A person who becomes aware that he/she is holding or owning Participating Shares in breach of any law of any country or governmental authority by virtue of which he/she is not qualified to hold such Participating Shares or that he/she is a person who belongs to or is comprised within any class of persons stipulated from time to time by the Manager shall, forthwith, unless he/she has already received a notice as described above, either transfer all his/her Participating Shares to a person qualified or permitted to own the same or give a request in writing for the redemption of all his/her Participating Shares.

Payment of the Redemption Price in the above circumstances will be made on the Subscription Day next following the receipt or deemed receipt of the redemption request in the currency of designation of the Participating Shares to which the redemption request or deemed redemption request relates. Upon the payment of such Redemption Price as aforesaid, such person shall have no further interest in such Participating Shares or any of them or any claim against the Fund in respect thereof except the right to receive the Redemption Price (without interest) upon delivery of the original purchase confirmation or other evidence of title.

The exercise by the Manager of the above mentioned power shall not be questioned or invalidated in any case on the ground that there was insufficient evidence of ownership of Participating Shares by any person or that the true ownership of any Participating Shares was otherwise than appeared to the Manager at the relevant date, provided that the said powers shall have been exercised in good faith.

The Manager may at any time and from time to time call upon any holder of Participating Shares by notice in writing to provide the Manager with such information and evidence as it shall require to ascertain whether or not the Participating Shares are owned directly or beneficially by a person falling within any of the descriptions set out above.

If the aggregate Net Asset Value of the Fund shall at the Valuation Point for each Subscription Day falling within a period of four consecutive weeks be less than USD10,000,000 or currency equivalent, the Manager may, by not less than three weeks' notice (expiring on a Subscription Day) to all holders of Participating Shares given within eight weeks after the expiry of the said four week period, redeem on the Subscription Day on which such notice expires, all (but not only some) of the Participating Shares then in issue at their respective Redemption Prices on such Subscription Day.

If the Net Asset Value of a Class of Participating Shares shall at the Valuation Point for each Subscription Day falling within a period of four consecutive weeks be less than such amount as may be specified for such purposes in the relevant Schedule, the Manager may, by not less than three weeks' notice (expiring on a Subscription Day) to all holders of Participating Shares of the relevant Class, given within eight weeks after the expiry of the said four week period, redeem on the Subscription Day on which such notice expires all (but not only some) of the Participating Shares of that Class then in issue at the Redemption Price on such Subscription Day.

5.6 Transfers

Participating Shares may be transferred in accordance with the following provisions of the Articles. The instrument of transfer of a Participating Share may be in any usual form or in any other form which the Manager may approve and shall be executed by or on behalf of the transferor. The Manager may, at its absolute discretion and without assigning any reason, decline to register any transfer of Participating Shares (not being fully paid Shares).

The Manager may also refuse to register any transfer:

- (a) to a person falling within the description contained in section 5.5 (Compulsory Redemption) of this Prospectus; and
- (b) of a Participating Share on which the Fund has a lien.

The Manager may also refuse to register a transfer unless the instrument of transfer is:

- (a) lodged at the Office of the Fund or at such other place as the Manager may appoint (the Manager may, at its discretion, also require proof of purchase or identification before processing a transaction);
- (b) in respect of only one Class of Participating Shares; and
- (c) in favour of not more than four transferees.

The registration of transfers of Participating Shares or of transfers of any Class of Participating Shares may be suspended at such times and for such periods (not exceeding 30 days in any year) as the Manager may determine.

The Manager shall be entitled to retain any instrument of transfer which is registered but any instrument of transfer which the Manager refuses to register shall (except in the case of fraud) be returned to the person lodging it when notice of the refusal is given.

The transferor of a Participating Share shall be deemed to remain the holder of such Participating Share until the Participating Share has been registered in the name of the transferee in the Register of Shareholders.

There shall be paid to the Fund in respect of the registration of any probate, letters of administration, certificate of marriage or death, power of attorney or other document relating to or affecting the title to any Participating Shares, such fee as the Manager may from time to time require or prescribe.

5.7 Dilution Levy

Where the Fund buys or sells underlying investments in response to a request for the issue or redemption of Participating Shares, it will generally incur a cost, made up of dealing costs and any spread between the bid and offer prices of the investments concerned, which is not reflected in the issue or redemption price paid by or to the Shareholder and which is referred to as **dilution**. With a view to reducing this cost (which, if it is material, disadvantages continuing Shareholders) the Fund is entitled to require payment of a **dilution levy**, to be added to the sale price or deducted from the redemption price of relevant Participating Shares as appropriate. The Fund may charge a dilution levy of up to 1% on the price of relevant Participating Share in such amount as may be necessary to avoid any dilution of the Net Asset Value of the relevant Class Fund.

The Directors expect that the dilution levy rate will be in the region of 0.5% in normal circumstances.

On the occasions when the dilution levy is not applied there may be an adverse impact on the total assets of the Fund.

6 VALUATION AND DIVIDENDS

6.1 Valuation

The Net Asset Value of each Class of Participating Shares shall be determined separately by the Manager by reference to the Valuation Point in respect of each Subscription Day and on such other occasions as the Manager may determine and shall be the value of all the assets, less all the liabilities of the Fund or attributed to the relevant Class Fund, calculated on the following basis. For the purposes of calculating the Net Asset Value, the following provisions will apply:

- (a) The assets of the Fund shall include:
 - (i) all cash on hand or on deposit or on call, including any interest accrued thereon;
 - (ii) all certificates of deposit, treasury bills, trade bills, bank acceptances, bills of exchange, bills, demand notes, promissory notes and accounts receivable;
 - (iii) all bonds, time notes, shares, stock, debentures, debenture stock, subscription rights, warrants, securities of whatever description and any form of interest in any of the foregoing and other Investments owned or contracted for by the Fund, other than rights and securities issued by it;

- (iv) all stock and cash dividends and cash distributions to be received by the Fund and not yet received by it, but declared to holders of record on a date on or before the day as of which the value is being determined;
 - (v) all interest accrued on any interest-bearing securities owned by the Fund except to the extent that the same is included or reflected in the principal value of such security;
 - (vi) cash payments outstanding on any Participating Shares allotted;
 - (vii) all other Investments of the Fund; and
 - (viii) all other property and assets of the Fund of every kind and nature, including prepaid expenses as valued and defined from time to time by the Manager.
- (b) The liabilities of the Fund shall be deemed to include:
- (i) all bills, notes and accounts payable;
 - (ii) all management and administrative expenses payable and/or accrued (the latter on a day-to-day basis);
 - (iii) the aggregate amount of all borrowings and interest, commitment fees and other charges in connection therewith;
 - (iv) all known liabilities, present and future, including the amount of any unpaid dividend declared upon the Shares in the Fund, contractual obligations for the acquisition of Investments or for the payment of money and outstanding payments on any Participating Shares previously redeemed;
 - (v) an appropriate provision for taxes as determined from time to time by the Manager; and
 - (vi) all other liabilities of the Fund of whatsoever kind and nature except liabilities represented by Shares in the Fund and reserves (other than reserves authorised or approved by the Fund for Duties and Charges or contingencies). In determining the amount of such liabilities, the Manager may calculate administrative and other expenses of a regular or recurring nature on an estimated figure for yearly or other periods in advance and accrue the same in equal proportions over any such period.
- (c) The calculation of Net Asset Value shall be based upon the prices and values ruling at the Valuation Point for the relevant Class Fund as set out in the relevant Schedule.
- (d) The value of any cash on hand or on deposit, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received shall be deemed to be the full amount thereof unless, in any case, the Manager is of the opinion that the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Manager may consider appropriate in such case to reflect the true value thereof.
- (e) The value of any units in any unit trust or of any shares in a company, the quoted price of the units or shares of which is directly related to the underlying value of its net assets, shall be the mid price notified to the Manager by the manager thereof.
- (f) The value of any demand notes, promissory notes and accounts receivable shall be deemed to be the face value or full amount thereof after making such discount as the Manager may consider appropriate to reflect the true current value thereof.
- (g) Deposits shall be valued at their principal amount plus accrued interest from the date of acquisition.
- (h) Certificates of deposit, treasury bills, bank acceptances, trade bills and similar instruments shall each be valued either:
- (i) on the basis of a notification to the Manager by a person approved by the Manager for the purposes of this paragraph, whose business includes dealing in or effecting transactions in the relevant instrument according to the normal dealing practice therein; or
 - (ii) on the basis of a straight line yield to maturity at the date of acquisition of the particular instrument.

- (i) Where any investment (not being an investment of the type described in paragraph (e) above) owned or contracted for by the Fund is listed or dealt in on a stock exchange recognised as such under the securities laws of the jurisdiction in which it is situated, the value of such investment shall be based on the price which shall be notified to the Manager by a member of the stock exchange concerned as being the mid-market price thereof as at the official close of such stock exchange immediately prior to the Valuation Point and, where any investment (not being an investment of the type described in paragraph (e) above) owned or contracted for by the Fund is dealt in on any over-the-counter market, the value of such investment shall be based on the mid-market price which shall be notified to the Manager by a person approved by the Manager for the purposes of this paragraph whose business includes dealing in or effecting transactions in the Investment concerned as being the price thereof as at the official close of such over-the-counter market immediately prior to the Valuation Point. Where such Investment is listed or dealt in on more than one stock exchange or over-the-counter market, the Manager may in its absolute discretion select any one of such stock exchanges or over-the-counter markets for the foregoing purpose.
- (j) Where agreements are in existence for the unconditional sale or purchase of Investments by the Fund but such sale or purchase has not been completed, such Investments shall be excluded or included and the net sale or gross purchase consideration excluded or included (as the case may require) as if such sale or purchase had been duly completed provided that, if the net amount receivable is not payable until some future time, the Manager shall make such allowance (if any) as it considers appropriate to reflect the true current value thereof.
- (k) If and whenever the quoted price of an investment is a single price, the dealing commission (if any) payable shall be taken into account to arrive at the market dealing price.
- (l) Where any amount in one currency is required to be translated into another currency, the Manager may effect such translation using such rate of exchange as in its absolute discretion it thinks appropriate, except where the Articles otherwise specifically provide.
- (m) The payments due for Participating Shares in the Fund to be redeemed shall, from the close of business on the day on which they are actually redeemed until such payment is made, be deemed to be a liability of the Fund.
- (n) If in any case a particular value is not ascertainable as above, provided or if the Manager considers that some other method of valuation better reflects the fair value of the relevant investment, then, in any such case, the method of valuation shall be such as the Manager shall decide subject to the approval of the Custodian or the Auditors.
- (o) Any determination of the Net Asset Value of a class of Participating Shares for the purposes of this Article shall be expressed in the currency in which the relevant Class of Participating Shares is designated.

Investors should be aware that, to the extent that the Valuation Point for a Class Fund does not coincide with the valuation points for collective investment schemes in which such Class Fund is invested, the values attributed to such collective investment schemes for the purposes of calculating the Net Asset Value of the Class Fund may be historic and may not reflect the actual value of the Class Fund's investments in such collective investment schemes at the relevant Valuation Point.

6.2 Dividend policy

The Fund is able to distribute income and capital gains realised by the Fund on its investments by way of dividend. Where there is no distribution, income on Investments and increases in the capital value of the Investments of the Fund will be reflected in the value of the Participating Shares.

7 CHARGES AND EXPENSES

7.1 Manager

(a) Management Fee

The Manager shall be paid a management fee as set out in the relevant Schedule 1.

The management shall accrue on each Subscription Day and shall be payable to the Manager by monthly payments in arrears. The directors of the Manager are paid by the Manager.

The Manager may obtain a rebate on any fees or charges levied by any scheme in which the Fund invests, provided such rebates are paid into the relevant Class Fund.

The fees of the Investment Manager and any outsourced administration, transfer agency or other functions not otherwise disclosed in this Prospectus will be met by the Manager out of its fees.

(b) Preliminary Charge

In addition, the Manager may receive a preliminary charge on subscriptions for or conversions of Participating Shares (as also set out in the respective Schedule(s) of the Class Fund(s)). Where the Manager acts as agent for the Fund in connection with the issue, transfer or conversion of Participating Shares, the Manager may require any person to whom Participating Shares of any class are to be allotted or transferred to pay to the Manager or to the Fund on behalf of the Manager for the absolute use and benefit of the Manager a preliminary charge in respect of each Participating Share to be allotted, transferred or converted of such amount as may be agreed between the Directors and the Manager but not exceeding in respect of each Participating Share to be allotted, transferred or converted an amount equal to 3% of the Subscription Price of a Participating Share of the relevant class, provided always that no preliminary charge will be levied by the Manager on the purchase of Participating Shares by or on behalf of a collective investment fund that it manages in respect of a purchase of Participating Shares in the Fund. The Manager may on any Subscription Day differentiate between applicants as to the amount of the preliminary charge included in the Subscription Price required to be paid to the Manager, and as to the amount of preliminary charge required to be levied in relation to each class of Participating Share (subject to the maximum aforesaid). The Manager may rebate all or any part of the preliminary charge to financial intermediaries.

(c) Rebates

The Manager may obtain a rebate on any fees or charges levied by any scheme in which the Fund invests, which shall be paid into the relevant Class Fund.

7.2 Investment Manager (and Distributor) and any outsourced service providers of the Manager

The fees of the Investment Manager will be met by the Manager out of its fees.

From the management fee, the Manager shall pay the Investment Manager an investment management fee.

The Distributor has currently waived any entitlement to fees in respect of distribution services provided to the Fund.

7.3 Custodian and Sub-Custodian

Custodian

The Custodian shall be paid a fee at the following rates, subject to an overall minimum fee in respect of each Class Fund of USD5,000 per annum (the **Custodian Minimum Fee**):

- (a) where the total value of the Fund's assets in respect of a Class Fund is less than USD50 million, 0.035% per annum of the Net Asset Value of that Class Fund;
- (b) where the total value of the Fund's assets in respect of a Class Fund is USD50 million or more but less than USD100 million;

- (i) 0.035% per annum on and any all amounts up to USD50 million of the Net Asset Value of that Class Fund; and
 - (ii) 0.025% per annum on any and all amounts above USD50 million of the Net Asset Value of that Class Fund but only up to USD 100 million.
- (c) where the total value of the Fund's assets in respect of a Class Fund is USD100 million or more but less than USD500 million;
 - (i) 0.035% per annum on any and all amounts up to USD50 million of the Net Asset Value of that Class Fund;
 - (ii) 0.025% per annum on any and all amounts above USD50 million of the Net Asset Value of that Class Fund but only up to USD100 million; and
 - (iii) 0.010% per annum on any and all amounts above USD100 million of the Net Asset Value of that Class Fund but only up to USD500 million;
- (d) where the total value of the Fund's assets in respect of a Class Fund is USD500 million or more:
 - (i) 0.035% per annum on any and all amounts up to USD50 million of the Net Asset Value of the Class Fund;
 - (ii) 0.025% per annum on any and all amounts above USD50 million of the Net Asset Value of that Class Fund but only up to USD100 million;
 - (iii) 0.010% per annum on any and all amounts above USD100 million of the Net Asset Value of that Class Fund but only up to USD500 million; and
 - (iv) 0.005% per annum on any and all amounts above USD500 million of the Net Asset Value of each Class Fund.

Such fees shall accrue daily and shall be payable to the Custodian by monthly payments in arrears.

The Custodian Minimum Fee shall increase in accordance with the Retail Price Index in Jersey applicable on each anniversary of the Custodian Agreement.

The Custodian shall be entitled to charge the Fund on a time-spent basis for any work undertaken by the Custodian (including extraordinary visits to service providers) deemed by the Custodian (acting reasonably) to be necessary as a result of any breaches by the Fund or the Manager of the constitutional documents, this Prospectus or other regulations of the Fund. The Custodian is entitled to receive or be reimbursed by the Fund from the assets of the Class Fund(s) for proper expenses and disbursements reasonably incurred or that may be incurred in connection with its duties.

The Custodian is also entitled to receive or be reimbursed by the Fund from the assets of the Class Fund(s) for any and all costs, fees and expenses of the Sub-Custodian which shall be at rates which have been negotiated on an arm's length basis or are otherwise on commercial terms.

The Fund and the Custodian may agree variations to the Custodian's fee or to the method of payment of remuneration payable to the Custodian subject to not less than 3 months' notice being given to holders of Shares in each of the Class Fund(s).

Sub-Custodian

The Sub-Custodian applies global transaction and safekeeping fees based on individual country fees together with non-resident alien and reporting fees respectively, with non-resident alien and reporting fees being in respect of income paid by USA incorporated companies and certain US beneficial owner accounts held with the Sub-Custodian. A copy of the Sub-Custodian Agreement is available for inspection as set out at section 14 (Inspection of Documents) in this Prospectus.

7.4 RSA Representative

The RSA Representative may charge such fees in respect of its services as may be agreed with the Manager from time to time. No fees are currently charged under the Representative Agreement. Any such fees would normally be borne by the Fund.

7.5 Additional Expenses

The following additional expenses are payable out of the assets of the Fund:

- (a) any stamp and other duties, taxes, government charges, commissions, brokerage, transfer fees, registration fees and other duties and charges payable in respect of the acquisition, holding or realisation of any Investment of the Fund and any foreign exchange transactions carried out in connection therewith;
- (b) all taxes and corporate fees payable by the Fund to any government or other authority or to any agency of such government or authority;
- (c) all fees and expenses incurred in relation to the incorporation and initial organisation of the Fund, incorporation by way of continuation, the creation, issue, sale, exchange, conversion, redemption or purchase of Participating Shares, the production, printing and distribution of the Prospectus, Accounts or any other similar document and the advertising and promotion generally of the Participating Shares;
- (d) all audit fees of the Fund, legal expenses and regulatory costs incurred in connection with the Fund's corporate existence, corporate and financial structure and relations with its Shareholders and third parties and all other professional and other charges in respect of services rendered to the Fund at the request of the Fund;
- (e) all expenses incurred in connection with the publication of prices of Participating Shares and/or Net Asset Value related valuations; and
- (f) interest on, and charges and expenses of the Fund in arranging and arising out of, all borrowings made by the Fund.

7.6 Directors

Executive Directors of the Fund shall each receive by way of remuneration up to USD10,000 and Non-Executive Directors of the Fund shall each receive by way of remuneration up to GBP20,000 per annum or, in respect of all Directors of the Fund, such greater remuneration as the Fund may by Ordinary Resolution determine and, unless the resolution provides otherwise, the remuneration shall be deemed to accrue from day to day.

The Directors may be paid all travelling, hotel and other expenses properly incurred by them in connection with their attendance at meetings of Directors or committees of Directors or general meetings or separate meetings of the holders of any class of Shares or of debentures of the Fund or otherwise in connection with the discharge of their duties.

8 TAXATION

Prospective investors should consult their own professional advisors in relation to the legal and tax consequences to them of acquiring, holding, redeeming, transferring, converting and selling Participating Shares under the relevant laws of the jurisdiction to which they are subject, including the tax consequences and any exchange control requirements. These consequences will vary with the law and practice of an investor's country of citizenship, residence, domicile or incorporation and with his/her personal circumstances. Taxation law and practice, and applicable levels of taxation are subject to future alteration.

The summary below is based on current law and practice in Jersey only, is subject to changes therein and does not purport to be conclusive. The information set out in this Prospectus should not be regarded as legal or tax advice. Prospective investors should also consider their obligations, if any, under FATCA and other exchange of information regimes and seek professional advice as necessary. Investors will be required to confirm their FATCA status to the fund on request.

8.1 The Fund

Subject to certain limited exceptions, under the Income Tax (Jersey) Law 1961 the general rate of Jersey corporate income tax is set at 0%. It is anticipated that the Fund will be subject to a zero tax rating in Jersey and, accordingly will not be liable to any Jersey tax on its income and gains. The Fund may, at its discretion, elect to be registered with the Comptroller of Income Tax as an 'eligible investment scheme' and pay an annual fee of approximately £500 to obtain certification of exemption from income tax in Jersey.

The Investments of the Fund will be made in such a way as to seek to minimise any tax deductible at source or withheld from any income or capital receipts of the Fund on its Investments. The Fund may, however, suffer withholding taxes on the dividends and interest it receives from its Investments.

The Directors intend to conduct the Fund's affairs such that, based on current law and practice of the relevant tax authorities, the Fund will not become resident for tax purposes in any other territory other than Jersey. It is assumed that the Fund does not become resident in a territory other than Jersey.

8.2 Indirect Taxation

Jersey introduced a Goods and Services Tax (**GST**) with effect from 6 May 2008 pursuant to the Goods and Services Tax (Jersey) Law 2007 (the **GST Law**). The rate of GST is currently 5%.

It is expected that the Fund will not suffer any irrecoverable GST, subject to annual application to the Comptroller of Income Tax for inclusion on the list of "international services entities" pursuant to the GST Law and payment of the relevant application fees.

8.3 Non-Jersey Investors

An investor in the Fund who is not a resident of Jersey for the purposes of taxation will only be liable to Jersey tax in respect of the income of the Fund to the extent that its share thereof is derived from Jersey source income (other than Jersey bank interest, by concession). It is not expected that any such Jersey income will arise in relation to the Fund. Therefore, such investors are not subject to taxation in Jersey in respect of any income or gains arising in respect of Participating Shares held by them. They could be subject to tax in their jurisdiction of tax residence.

Shareholders should note that an exchange or conversion of Participating Shares in one part of the Fund into Participating Shares in another Class of the Fund may in certain jurisdictions be a realisation for the purposes of capital gains taxation.

8.4 Jersey Investors

The tax position of Shareholders who are resident for income tax purposes in Jersey can be complex. Such Shareholders may be liable to pay income tax at a rate of up to 20% and they are recommended to consult a professional adviser.

The attention of Jersey residents is drawn to the provisions of Article 134A of the Income Tax (Jersey) Law 1961 which may in certain circumstances render their investment chargeable to Jersey tax where they have invested in an accumulation fund such as the Fund.

On request by the Jersey Comptroller of Income Tax, the Fund must deliver to the Comptroller of Income Tax a list showing the names, addresses and shareholdings of Jersey residents as at the date of the request by the Comptroller. Where a Jersey resident is identified, withholding of tax may occur.

8.5 All Investors (Jersey and Non-Jersey)

No duties are payable in Jersey on the issue, conversion, redemption or transfer of Participating Shares.

Under Jersey law, upon the death of a shareholder of a Jersey fund, grant of probate or letters of administration will be required to transfer, convert, redeem or make payments in respect of the Participating Shares of the deceased person but the Fund may (at its discretion) dispense with this requirement where the value of the deceased's movable estate in Jersey does not exceed GBP10,000. Stamp duty is payable at a rate of up to approximately 0.75% of the value of the Participating Shares on the registration of Jersey Probate or Letters of Administration.

Save as set out above no Jersey stamp duty is levied on the issue or transfer of Participating Shares.

There is no capital gains tax, estate duty or inheritance tax in Jersey.

8.6 FATCA, the Common Reporting Standard and other tax information reporting rules

The FATCA provisions are US provisions contained in the US Hiring Incentives to Restore Employment Act 2010 which impose a withholding tax of 30% on (i) certain US source interest, dividends and certain other types of income; and (ii) the gross proceeds from the sale or disposition of assets which produce US source interest or dividends, which are received by a FFI, unless the FFI complies with certain reporting and other related obligations under FATCA.

Jersey has concluded an intergovernmental agreement (**IGA**) with the US to implement FATCA. The Fund will be an FFI for these purposes and will need to provide information about the identity of certain directors who are US persons or directors with beneficial owners who are US persons to the Jersey Comptroller of Taxes, who will then forward that information to the competent authority in the US. Provided that the Fund complies with its obligations, it should not suffer any FATCA withholding taxes.

In addition to the IGA entered into with the US, the States of Jersey and the government of the United Kingdom have entered into an inter-governmental agreement ((**UK IGA**) and together with the US IGA, (the **IGAs**)) for the implementation of information exchange arrangements, based on FATCA, whereby relevant information reported to the Jersey authorities in respect of a person or entity who is resident in the UK for tax purposes will be shared with the UK's HM Revenue and Customs. Under the UK IGA, the Fund may be required to provide information to the Jersey authorities about the directors, their beneficial owners and their interests in the Fund in order to fully discharge its reporting obligations and, in the event of any failure or inability to comply with the proposed arrangements, may suffer a financial penalty or other sanction under Jersey law.

On 21 July 2014, the OECD released the Standard for Automatic Exchange of Financial Account Information in Tax Matters (**Standard**), following approval by the OECD Council on 15 July 2014. The Standard includes a model regime to serve as the common standard on reporting and due diligence for financial account information (known as **CRS**). Like FATCA and the IGAs, the CRS requires financial institutions in participating jurisdictions to follow common due diligence procedures and to report specified financial information to their tax authorities which is then automatically exchanged with other participating jurisdictions. Jersey is committed to domestic implementation of the CRS and the Fund is likely to be a financial institution for CRS purposes. In December 2014, the CRS was incorporated into EU-wide legislation (Council Directive 2014/107/EU, amending Council Directive 2011/16/EU) (**DAC**). Pursuant to the DAC, EU member states (other than Austria), started exchanging information automatically for the first time by 30 September 2017.

For 2018, the United Kingdom intends to move from exchanging information with Jersey under the United Kingdom IGA to exchanging it under CRS. Under the CRS, the Company may be required to provide information to the Jersey authorities about shareholders, their beneficial owners and their interests in the Company in order to fully discharge its reporting obligations and, in the event of any failure or inability to comply with the proposed arrangements, may suffer a financial penalty or other sanction under Jersey law.

Each shareholder is required to consent to the disclosure (to the US or any other taxing jurisdiction as may be required) of their identity as well as any related information that may be required under (a) FATCA, (b) the IGAs, (c) the CRS or (d) any other law or agreement entered into with any other country relating to the sharing of tax information between countries (**Tax Transparency Requirements**).

The scope and application of the Tax Transparency Requirements, including in respect of withholding and information reporting, are subject to review by the United States, the United Kingdom, Jersey and other governments, and the rules may change. Although the Fund intends to comply with applicable law, it cannot be predicted at this time as to the particular form that the Tax Transparency Requirements might take or as to the benefits or risks of complying with such Tax Transparency Requirements. Tax advisors should be consulted regarding the application of the Tax Transparency Requirements to particular circumstances.

8.7 OECD consultations on changes in tax law.

Prospective shareholders in the Fund should be aware that the OECD published its Action Plan on Base Erosion and Profit Shifting (otherwise known as BEPS) in 2013, the final reports were published on 5 October 2015 and jurisdictions are starting to consider their response. Depending on how BEPS is introduced, changes to tax laws based on recommendations made by the OECD in relation to BEPS may, for example, result in: the restriction or loss of existing access by the Fund to tax relief under applicable double taxation agreements; the creation of a permanent establishment of the Fund or of investors in the Fund within a certain jurisdiction; or restrictions on permitted levels of deductibility of expenses (such as interest) for tax purposes. Such effects could lead to additional tax being suffered by the Fund, which may adversely affect the value of the investments held by investors in the Fund. There could also be additional tax reporting and disclosure obligations for investors.

In June 2016, Jersey became a BEPS Associate and a member of the BEPS inclusive framework, which allows Jersey to contribute to the overall development of the BEPS project.

9 RISK FACTORS

All investments in the Fund and the Class Fund(s) involve the risk of loss of capital. There can be no guarantee or representation that the Fund and its Class Fund(s) will achieve their investment objective. An investment in the Fund and its Class Fund(s) is speculative and is not intended as a complete investment program.

An investment in the Fund and its Class Fund(s) are suitable only for persons who can bear the economic risk of the substantial or total loss of their investment. An investment in the Fund and its Class Fund(s) involves certain considerations and significant risk factors.

While the following summary of certain of these risks should be carefully evaluated before making an investment in the Fund and its Class Fund(s), the following risk factors do not intend to describe all possible risks of such an investment.

9.1 General

- (a) Because of the specialised nature of the Fund and its Class Fund(s), investment in the Fund and its Class Fund(s) may not be suitable for certain investors and, in any event, an investment in the Fund and its Class Fund(s) should constitute only a part of an investor's total investment portfolio.
- (b) There can be no assurance that the Fund and its Class Fund(s) will return a profit or that cash will be distributed from the underlying Investments to the Class Fund(s).
- (c) The value of any investment, including Participating Shares in the Fund, can go down as well as up and investors may not be repaid the full amount (or any) of their investment in the Fund and its Class Funds on the redemption, conversion or transfer of their Participating Shares.
- (d) There is no assurance that the investment objectives of the Fund will actually be achieved.
- (e) If an investment in the Fund is redeemed at an early stage, the preliminary charge paid upon purchase of Participating Shares may exceed any return on the investment in which case the investor will not receive the full amount of their original investment.
- (f) Should any of the underlying Investments of the Class Fund(s) go into liquidation or perform poorly, this will have a negative impact on the Redemption Price and it is likely that investors will not receive back the full value of their original investment.
- (g) Although it will be the policy of the Class Fund to diversify its investment portfolio in accordance with the investment restrictions of a Class Fund, the Class Fund may at certain times hold relatively few Investments. The Class Fund could be subject to significant losses if it holds a large position in a particular Investment that declines in value or is otherwise adversely affected, including default of the issuer.
- (h) In the event of a termination of the Fund or a Class Fund prior to organisational fees being fully amortized, the Fund would have to distribute to the Shareholders their pro rata interest in the assets of each Class Fund. Such an early termination would have the effect of accelerating the unamortized portion of any organisational expenses, thereby decreasing amounts otherwise available for distribution.

9.2 Liquidity risk

Shareholders have the right to redeem their Participating Shares in the Fund in accordance with the procedures detailed in this Prospectus. In order to meet its obligations the Fund would be required to sell Investments held in a particular Class Fund. Consequently, in that event it may be relatively difficult for the Fund to dispose of such Investments rapidly at favourable prices, in connection with redemption requests, adverse market developments or other factors. Unforeseen events can result in abnormal periods of lower market liquidity which can hamper the efforts of the Fund to, among other things, liquidate investments. In this case, the Directors may determine that it is necessary to suspend redemptions from the Fund. There is therefore a risk that the Fund might not be able to fully repay amounts demanded by its Shareholders or has to delay the redemption in order to realise the Investments and satisfy the redemption requests.

9.3 Effects of substantial redemptions

Substantial redemptions of Participating Shares by Shareholders of the Fund within a limited period of time could require the Fund to liquidate positions more rapidly than would otherwise be desirable, which could adversely affect the value of both the Participating Shares being redeemed and the remaining outstanding Participating Shares and even cause the liquidation of a Class Fund. In addition, regardless of the period of time in which redemptions occur, the resulting reduction in the Fund's assets could make it more difficult for the Fund to generate a positive rate of return or recoup losses due to a reduced equity base. The Fund is not required to redeem more than one eighth of the Participating Shares in issue or deemed to be in issue or more than one eighth of the Participating Shares of any Class Fund in issue or deemed to be in issue on any particular Subscription Day.

At the time of giving notice to redeem, holders of Participating Shares will not know the Redemption Price at which their Participating Shares will be redeemed. Between the date a redemption notice is served and the calculation of the Net Asset Value at the next Valuation Point, the Net Asset Value per Participating Share may change substantially. Between the Subscription Day and the date of actual payment, the redemption proceeds remain at risk of default by the Class Fund.

9.4 Dividend policy

The Fund is able to distribute income and capital gains realised by the Fund on its investments by way of dividend. As a result, an investment in the Fund may provide income to Shareholders.

9.5 Potential indemnification obligations

Under certain circumstances, the Fund might be subject to significant indemnification obligations (directly or indirectly) in respect of the Manager, the Investment Manager, the Custodian, the Sub-Custodian and their respective officers, employees, agents and delegates, and any other Person who serves the Fund. This may result in contingent liabilities, which ultimately might have to be funded by the one or more of the Class Funds. The Fund will generally not carry any insurance to cover such potential obligations and none of the foregoing parties will necessarily be insured for losses for which the Fund has agreed to indemnify them. Any indemnification that is paid by the Fund would reduce its net assets and, by extension, the value of Participating Shares and the returns that are available to Shareholders.

9.6 Overall investment risk

All investments risk the loss of capital. The nature of the Investments to be purchased by the Fund and its Class Fund(s) and the investment techniques and strategies to be employed in an effort to increase profits may increase this risk. While the Directors, the Manager and the Investment Manager (and their respective agents and delegates) will devote their best efforts to the management of the Fund and its Class Fund(s), there can be no assurance that the Fund and its Class Fund(s) will not incur losses. Many unforeseeable events, including actions by various government agencies, and domestic and international political events, domestic and international economic events, may affect the value of the Investments. Past performance of similar investments, any Class Fund, the Manager, the Investment Manager (or their respective agents and delegates) or any entity affiliated with the Fund or its service providers should not be construed as an indication of or guide to the future performance of any Class Fund.

9.7 Foreign investments

The future performance of the Fund and its Class Fund(s) will depend considerably on the stability of the relevant jurisdictions in which the Fund and its Class Fund(s) intend to invest and the absence of political conflict. Further, future performance of the Fund and its Class Fund(s) may be impacted by changes in government policy in respective jurisdictions. With any investment in a foreign country, the Fund and its Class Fund(s) may face the risk of adverse political developments, including nationalisation, confiscation without fair compensation or war or civil unrest. In addition, the laws and regulations of certain of those jurisdictions may impose restrictions or approvals that would not exist in more developed countries and may require financing and structuring alternatives that differ significantly from those customarily used in developed countries. Foreign countries also may impose additional taxes on the Fund and its Class Fund(s) and its investors as a foreign investor. The Directors can give no assurance that a political or economic climate, or particular legal, regulatory, tax or other risks, might not adversely affect an investment by the Fund and its Class Fund(s).

9.8 Legal and tax systems

The legal and tax system of some markets are less predictable than most legal systems in countries with fully developed capital markets. Some of these markets can lack a fully developed consistent legal system and the body of commercial law and practice found in countries with more sophisticated market economies. Currently, the tax rules and regulations that prevail in certain countries are either new or under varying stages of review and revision. Local laws and regulations, in particular those concerning foreign investment and taxation, may change quickly and unpredictably without prior notice. Inconsistencies and discrepancies among the vast number of local, regional and national laws, the lack of judicial or legislative guidance on unclear or conflicting laws, and broad discretion on the part of government and judicial authorities implementing the laws produce additional legal uncertainties. Reliance on oral administrative guidance from regulators and procedural inefficiencies hinder legal remedies in many areas, including bankruptcy and the enforcement of creditors' rights. Moreover, it can be common to experience delays when obtaining governmental licenses and approvals.

The Fund and its Class Fund(s) cannot guarantee that in the future current taxes will not be increased. Nor can it guarantee that in the future additional sources of revenue or income, or other activities, will not be subject to new taxes, charges or similar fees. Any such increase in taxes, charges or fees payable by underlying Investments or the Fund itself and its Class Fund(s) may reduce the returns for its investors. In addition, capital repatriation regulations being implemented and changes to tax treaties (or their interpretation) between countries in which the Fund and its Class Fund(s) invest and countries through which the Fund and its Class Fund(s) conduct its investment program may have significant adverse effects on the Fund and its Class Funds(s)' ability to efficiently realise income or capital gains. Consequently, it is possible that the Fund and its Class Funds may face unfavourable tax treatment resulting in an increase in the taxes payable by the Fund and its Class Fund(s) on its investments. Any such increase in taxes could reduce investment returns to its investors.

With respect to certain countries, there is the possibility of (i) expropriation; (ii) confiscatory taxation; (iii) the imposition of withholding or other taxes on dividends, interest, capital gains or other income; and (iv) limitations on the removal of funds or other assets of the Fund and its Class Fund(s). There is also the possibility that political or social instability or diplomatic developments could affect investments in those countries. An issuer of securities may be domiciled in a country other than the country in whose currency the instrument is denominated. The values and relative yields of investments in the securities markets of different countries, and their associated risks, are expected to change independently of each other. Changing market and economic conditions and other factors, such as changes in tax laws, securities laws, bankruptcy laws or accounting standards, may make the business of a Class Fund less profitable or unprofitable.

9.9 Evolving regulatory regimes

The regulatory environment in the countries in which the Fund and its Class Fund(s) may invest vary but in many cases, the levels of regulatory control over matters involving foreign investment can be controlled or restricted to varying degrees. In some countries prior government approval is required for foreign investment. The adoption of more stringent regulatory controls in these countries is not uncommon and may affect the financial performance of the Investments.

9.10 Borrowings

Borrowing is allowed up to 10% of the Net Asset Value of the Class Fund on a temporary basis to cover insufficient liquidity as a result of the redemption of Participation Shares. The Fund may also pledge or grant security over portfolio assets as collateral security for the repayment of that borrowing. In these circumstances, the continuing Shareholders will bear the risk of any subsequent decline in the value of the Fund's assets. The Fund may be adversely affected by the costs of such borrowing for the purposes of redemptions if assets cannot be liquidated in a reasonable period to repay such borrowing.

9.11 Foreign withholding taxes

Dividend and interest payments (or other forms of income) on certain Investments the Fund and its Class Fund(s) may own may be subject to withholding taxes, which would ultimately reduce net proceeds from the Fund and its Class Fund(s) to investors.

9.12 Foreign currency and exchange-rate risks

The Fund and its Class Fund(s) assets may be invested in assets denominated in a functional currency other than the Base Currency. Over time, there may be changes in the exchange rate as a result of the interaction of many factors; these changes may directly or indirectly affect the economic and political conditions in the countries in which the Fund and its Class Fund(s) invest. Rarely do national governments voluntarily allow their currencies to float freely in response to economic forces. Sovereign governments use a variety of techniques, such as intervention by a country's central bank or imposition of regulatory controls or taxes, to affect the exchange rates of their currencies. The Fund and its Class Fund(s) may use hedging techniques to seek to protect the Fund and its Class Fund(s) against loss through fluctuations in the value of foreign currencies, particularly the forward market in foreign exchange, currency option and currency futures. But for certain currencies, currently there may not be a reliable and cost efficient method of hedging currency risk. Consequently, currency exchange rate fluctuations, currency devaluations and exchange-control regulations may adversely affect the performance of portfolio companies and the return realised on the Fund and its Class Fund Investments.

9.13 Investment fund regulation

There has recently been significant discussion regarding enhanced governmental scrutiny and/or increased regulation of the investment funds industry. There can be no assurance that any such scrutiny or regulation will not have an adverse impact on the Fund and its Class Fund(s)' activities and Investments, including the ability of the Fund and its Class Fund(s) to implement operating improvements or otherwise execute its investment strategy or achieve its investment objectives. Depending on the nature of the restrictions and/or increased regulation implemented from time to time and the timing of implementation, it may become legally or practically difficult and/or commercially undesirable for the Fund to continue as a Jersey open ended collective investment fund, in which event the Directors may seek to take such steps as the Directors deem necessary or advisable in consequence of the implementation of restrictions and/or increased regulation.

9.14 Risks due to the Fund's structure

(a) Dependence on key personnel

The Fund's investment activities depend on the experience and expertise of the principals of the Investment Manager and the Manager. If a principal leaves the Investment Manager or the Manager, this may have a material adverse effect on the Fund's operations.

(b) Illiquidity of Participating Shares

Redemptions may be subject to certain charges, to a lock-up or suspension period or an overall redemption limit of a percentage of the Net Asset Value of the Fund or a Class Fund at any one time.

(c) Nature of regulatory oversight

Although the Fund is an unclassified fund under the Funds Law in Jersey, it does not intend to register under the laws of any other jurisdiction. As a consequence, the statutes of certain jurisdictions other than Jersey (which may provide certain other regulatory safeguards to investors) do not apply.

(d) Limited rights of Shareholders

An investment in the Fund should be regarded as a passive investment. This is because Shareholders holding Participating Shares have no right to participate in the day-to-day operations of the Fund. Consequently, they have limited control over the management of the Fund or over the appointment and removal of its Directors and service providers.

(e) Valuation of the Fund's investments

Valuation of the Fund's securities and other investments may involve uncertainties and judgmental determinations. If a valuation is incorrect, the Net Asset Value per Participating Share may be adversely affected. Independent pricing information about some of the Fund's securities and other investments may not always be available. However, valuations will be made in good faith in accordance with the Articles.

If the value assigned by the Fund to an investment differs from its actual value, the Net Asset Value per Participating Shares may be either understated or overstated to the extent of that difference. Consequently, if the actual value of some of the Fund's Investments is higher than the value assigned to them, a Shareholder holding Participating Shares who redeems all or part of their Shares while they are so undervalued may be paid less than if they were correctly valued. Conversely, if the actual value of some of the Fund's Investments is lower than the value assigned to them, the Shareholder may, in effect, be overpaid.

Furthermore, an investment in the Fund by a new Shareholder (or an additional investment by an existing Shareholder) may dilute the value of the Fund's investments for the other Shareholders if those investments are undervalued. Conversely, a new Shareholder (or an existing Shareholder who makes an additional investment) could pay too much if the Fund's investments are overvalued by the Fund. If either of these scenarios happens, the Fund does not intend to adjust the Net Asset Value per Participating Share retroactively.

Additionally, as the fees of a number of the Fund's service providers are tied to the Fund's Net Asset Value per Participating Share, any discrepancy in valuation may result in overpayment or underpayment to those service providers. None of the Directors, nor the Fund, the Manager, the Investment Manager, the Custodian or the Sub-Custodian will be liable if a price or valuation used in good faith in connection with any of the above procedures later proves to be incorrect or inaccurate.

The Net Asset Value per Participating Share is expected to fluctuate over time with the performance of Investments of the Fund. A Shareholder may not fully recover his initial investment when he chooses to redeem his Participating Shares or upon compulsory redemption if the Net Asset Value per Participating Share at the time of such redemption is less than the Subscription Price paid by such Shareholder or if there remain any unamortized costs and expenses of establishing the Fund or a Class Fund.

(f) No separate counsel

As at the date of this Prospectus, Ogier acts as legal counsel to the Fund. No separate counsel has been retained to act on behalf of the Shareholders or any Directors. This Prospectus is based on information furnished by the Manager, the Investment Manager and the Custodian. Ogier has not independently verified that information.

9.15 Investment and trading risks

(a) Trading risks

One or more markets in which the Fund or its underlying investments trades may move against the positions held by it, thereby causing substantial losses. Government policies, especially those of foreign central banks, have profound effects on interest and exchange rates which, in turn, affect the value of the investments made by the Fund.

(b) International considerations

The Fund will be subject to fiscal and taxation policies, regulatory regimes including securities regulations, market and settlement practices and sovereign and political risks of the countries in which the Fund invests.

(c) In-kind redemptions

On a redemption the Fund has the power, with the sanction of a Special Resolution or the approval of the Custodian and the redeeming Shareholder, to settle the Redemption Price with investments of the relevant Class Fund in lieu of or in combination with cash. The value of investments distributed may increase or decrease before the investments can be sold, and the investor will incur transaction costs in connection with the sale of those Investments. Additionally, Investments distributed to a Shareholder in connection with a redemption may not be readily marketable. In those circumstances, the investor bears the risk of loss and delay in liquidating those investments, with the result that it may ultimately receive less cash than it would otherwise have received if it had been paid in cash alone for its Participating Shares on the date of redemption.

(d) Material facts or circumstances not revealed in the due diligence process

Prior to making or proposing any investment, the Fund will undertake relevant legal, financial and commercial due diligence on potential investments to a level considered reasonable and appropriate by the Fund on a case by case basis. However, these efforts may not reveal all material facts or circumstances which would have a material adverse effect upon the value of the investment. In undertaking due diligence, the Fund will need to utilise its own resources and may be required to rely upon third parties to conduct certain aspects of the due diligence process. Further, the Fund may not have the ability to review all documents relating to a potential investment. Any due diligence process involves subjective analysis and there can be no assurance that due diligence will reveal all material issues related to a potential investment which might be necessary or helpful in evaluating a potential investment.

(e) No segregation between Classes

Assets of the Fund are divided between different classes of Participating Shares that are separately subscribed by Shareholders. Assets of each Class Fund may be invested separately in different portfolios and asset classes so that the performance in one Class Fund may not necessarily have any correlation to the performance of any of the others. Accordingly Shareholders in one Class Fund will not participate in profits of another Class Fund. Subject to the statements immediately following, losses attributed to a Class Fund will be satisfied by the Class Fund that incurred the losses. In the event, however, that the assets of a Class Fund are unable to satisfy the liabilities incurred to that Class Fund, creditors or interested parties with a right to collect on the liabilities have a right to proceed against the general assets of the Fund which shall include the assets of the other Class Funds. The assets of each of the Class Funds are therefore not segregated or ring-fenced, so that liabilities of one class are liabilities of the Fund as a whole.

Those assets of the Class Fund and/or underlying funds held as margin may not be held in a segregated account on behalf of the Class Fund and/or the underlying fund (as the case may be) and may therefore be available to the creditors of the relevant investment manager in the event of the relevant investment manager's insolvency.

(f) Lack of regular cash flow

The Manager does not anticipate regular cash flow distributions from the Investments of the Fund. The primary source of cash flow to the Fund may be upon the disposition of any of the portfolio Investments and Shareholders should not anticipate regular operating cash flow from Fund Investments.

(g) Risks of global investing

The Fund invests (directly and indirectly) throughout the world and in various markets throughout the world. As a result, the Fund is subject to risks relating to the following:

- (i) currency exchange matters, including fluctuations in the rate of exchange between the Base Currency of each Class Fund and various other currencies in which its investments may be denominated, and costs associated with converting investment principal and income from one currency into another;
- (ii) securities of companies in some countries may be illiquid and their prices volatile;
- (iii) certain types of investments may result in higher than normal custodial and currency conversion risk; and
- (iv) the possible imposition of withholding taxes on income received from the issuer of, or gains with respect to, those investments.

In addition, investing in some of these capital markets involves factors that may not typically be associated with investing in established securities markets. These include risks relating to the following:

- (i) differences between markets, including potential price volatility in and relative illiquidity of some securities markets;
- (ii) the absence of uniform accounting, auditing and financial reporting standards, practices and disclosure requirements, and less governmental supervision and regulation; and

- (iii) certain economic and political risks, including adverse political and economic developments, potential exchange control regulations or restrictions on investment and repatriation of earnings or capital, expropriation and nationalisation or other government restrictions.

(h) Counterparty and settlement risk

Due to the nature of some of the investments that the Fund may make, the Fund may rely on the ability of the counterparty to a transaction to perform its obligations. If that party fails to complete its obligations for any reason, the Fund may suffer losses and therefore be exposed to a credit risk on the counterparties with which it trades. The Fund will also bear the risk of settlement default by clearing houses and exchanges. A default by a counterparty or a default on settlement could have a material adverse effect on the Fund.

(i) Trading errors

The Fund will bear the financial consequences of all trade errors including, but not limited to, a technology error or malfunction in the computers, networks, and systems used by the Investment Manager, the Manager, the Custodian, the Sub-Custodian and their respective employees, agents, affiliates, counterparties and service providers. The Investment Manager, the Manager, the Custodian, the Sub-Custodian and their respective employees, agents, affiliates, counter-parties and service providers will take all reasonable measures to ensure that trade errors do not occur and will monitor and document all trade errors but Shareholders must be prepared to bear the cost of a trade error.

(k) Investment flexibility

The Fund has broad and flexible investment authority subject to the investment restrictions set out in the Schedule(s). The amount of the Fund's portfolio which is invested in any type of investment or which is weighted in different countries or different sectors can change at any time based on the availability of attractive market opportunities. Accordingly, at any time, the Fund may have significant investments in strategies, sectors or instruments not specifically described herein and which therefore present risks which are not specifically described herein.

9.16 Custody related risks

- (a) The Custodian has delegated a material part of its custody function to the Sub-Custodian.
- (b) The Sub-Custodian may pool the assets of the Fund with other property of the same type belonging to the Sub-Custodian, a securities depository, their nominees or other clients of the Sub-Custodian. Entitlements of the Fund to assets of the Fund in a pool may not be identifiable by separate certificates or other physical documents and if the Sub-Custodian or Custodian defaults in its obligations, then any shortfall in any type of asset belonging to the Fund and various other clients of the Sub-Custodian may be shared pro rata among all clients for whom the Sub-Custodian holds such assets.
- (c) In certain circumstances securities may be registered in the name of a further sub-custodian or a depository or their nominee. Where securities are registered or recorded in this manner, they may not be physically segregated from the assets of such entities and in their event of insolvency, the Fund's assets may not be protected from claims made by their creditors.
- (d) Fund property held in or through any further sub-custodian or depository will be held subject to the rules of the sub-custodian or depository concerned and claims against them may consist only of a contractual claim against the sub-custodian or depository.
- (e) Custody risks may arise for which the Custodian and/or Sub-Custodian would potentially not be liable (in whole or in part) including those in relation to loss arising from securities held by a depository or other sub-custodian, lack of segregation by a sub-custodian or depository (and related insolvency risk), lack of segregation when pooling on settlement of transactions (and related insolvency risk), settlement of transactions in Investments in accordance with market practice and applicable law, reversals of transactions and delivery or payment failure by a counterparty.

- (f) The Fund has not contracted with the Sub-Custodian directly and has no privity of contract with the Sub-Custodian, only with the Custodian. The Custodian does not remain responsible for the acts and omissions of the Sub-Custodian as though they were the acts of the Custodian itself unless the Sub-Custodian is an Associate. The Sub-Custodian is not an Associate of the Custodian.
- (g) The Sub-Custodian may appoint agents including further sub-custodians and may delegate all or any of its functions and powers to such persons. The Sub-Custodian is required to exercise reasonable care in its selection, retention, monitoring and continued use of such sub-custodians but there are significant limitations on the liability of the Sub-Custodian in relation to the appointment of such agents and sub-custodians, save where losses arise out of the Sub-Custodian's fraud, negligence or wilful misconduct.

The foregoing list of risk factors does not purport to be exhaustive or complete, nor does it purport to be an explanation of the risks involved in an investment in the Fund. Prospective investors should read the entire Prospectus, the Application Form and the Articles and consult with their own legal, tax and financial advisers before deciding to invest in the Fund. You should invest in the Fund only if you understand the nature of the investment, do not require more than limited liquidity in your investment and can bear the economic risk of the investment. In addition, as the Fund's investment program changes or develops over time, an investment in the Fund may be subject to risk factors not described in the Prospectus. The Prospectus may be supplemented from time to time to disclose any material changes in the information provided herein. No assurance can be given that profits will be achieved or that substantial losses will not be incurred.

10 CONFLICTS OF INTEREST

The Fund is subject to a number of actual and potential conflicts of interest.

10.1 Management of the Fund and non-exclusivity

The Manager, the Investment Manager, the Custodian, the Sub-Custodian, the RSA Representative (and their respective directors, associates, officers, employees, agents and delegates) and the Directors, may act for, or be involved with, other clients or collective investment vehicles including those that have similar investment objectives to those of the Fund, in which the Fund will have no interest and whose respective investment policies may or may not be substantially similar. The investment strategies employed for such other investment funds could conflict with the strategies employed in managing the Fund's investments and affect the prices and availability of the investments in which the Fund invests. Conversely, participation in specific investment opportunities may be appropriate at times for both the Fund and such other investment funds. In such case, participation in such opportunities will be allocated on an equitable basis, taking into account such factors as the relative amounts of capital available for new investments, relative exposure to short-term market trends, and the respective investment policies of the Fund and the other investment funds. Such considerations may result in allocations of certain investments on other than a pari passu basis.

In respect of such activities, the Manager, the Investment Manager, the Custodian, the Sub-Custodian, the RSA Representative (and their respective directors, associates, officers, employees, agents and delegates) and the Directors:

- (a) shall not be under any duty to disclose to the Fund any fact or thing which may come to their knowledge in the course of their activities for other clients;
- (b) can acquire, hold or deal with for its own account or for the account of any client or other person and in its own name or in the name of such customer or person or of a nominee any Participating Shares or securities for the time being issued by the Fund; and
- (c) shall not be liable to account to the Fund, the Members or any of them for any profits or benefits made by or derived from or in connection with any transaction permitted under this Prospectus.

10.2 Time and commitment

The Manager, the Investment Manager, the Custodian, the Sub-Custodian, the RSA Representative (and their respective directors, associates, officers, employees, agents and delegates) and the Directors shall devote as much of their time to the activities of the Fund as they deem necessary and appropriate. The Manager, the Investment Manager, the Custodian, the Sub-Custodian, the RSA Representative (and their respective directors, associates, officers, employees, agents and delegates) and the Directors are not restricted from forming additional investment funds, entering into other management relationships or engaging in other business activities, even though such activities may be in competition with the Fund and/or may involve substantial time and resources.

10.3 Transactions with associates

The Fund may transact with or participate in transactions in which the Manager, the Investment Manager, the Custodian, the Sub-Custodian, the RSA Representative (and their respective directors, associates, officers, employees, agents and delegates) and the Directors are directly or indirectly interested. In connection with such transactions, the Fund on the one hand, the Manager, the Investment Manager, or other counterparty, may have conflicting interests. Subject to applicable law, any of the service providers (including the Manager, the Investment Manager, the Custodian, the Sub-Custodian, the RSA Representative (and their respective directors, associates, officers, employees, agents and delegates) and the Directors) may deal, as principal or agent, with the Fund, provided that such dealings are on normal commercial terms negotiated on an arm's length basis.

Any transactions between the Fund, the Manager, the Investment Manager, the Directors of the Fund or any of their connected persons as principals (each a **Proposed Related Transaction**) may only be made with the prior written consent of the Custodian (the Custodian having been notified of Proposed Related Transaction in advance) and all such transactions must be disclosed in the annual report of the Fund.

10.4 Interests in Investments

The Manager, the Investment Manager, the Custodian, the Sub-Custodian, the RSA Representative (and their respective directors, associates, officers, employees, agents and delegates) and the Directors may, from time to time, have an interest, direct or indirect, in Investments or related transactions, whose purchase or sale is recommended or which is purchased, sold or otherwise traded for the Fund.

10.5 Fees

The Fund has been established and promoted and is managed by entities within the same corporate group and the terms of their appointment and management fees could be perceived to be not the result of arms-length negotiations. However, the Fund and the Manager believes that the management fees, commissions and compensation payable to itself and the Investment Manager are consistent with normal market rates for investment funds of a similar type to the Fund.

10.6 Directors

The Directors may also, from time to time, provide services to, or be otherwise involved with, other investment funds established by parties other than the Fund which may have similar objectives to those of the Fund. It is therefore possible that any of them may, in the course of business, have potential conflicts of interest with the Fund. However, the Directors will at all times (in so far as practicable) have regard to their obligations to act in the best interests of the Fund and its Shareholders and ensure that all such potential conflicts of interest are resolved fairly and in the best interests of the Fund and its Shareholders.

Subject to the provisions of the Law, and provided that he has disclosed to the Directors the nature and extent of any material interests, a Director notwithstanding his office:

- (a) may be a party to, or otherwise interested in, any transaction or arrangement with the Fund or in which the Fund is otherwise interested;
- (b) may be a director or other officer of, or employed by, or a party to any transaction or arrangement with, or otherwise interested in, any body corporate promoted by the Fund or in which the Fund is otherwise interested;
- (c) shall not, subject as provided hereafter, by reason of his office, be accountable to the Fund for

any benefit which he derives from any such office or employment or from any such transaction or arrangement or from any interest in any such body corporate and no such transaction or arrangement shall be liable to be avoided on the ground of any such interest or benefit provided that if and to the extent that any Director shall receive any fees from any such office or employment held as a direct result of any Investment made by the Fund, such Director shall account to the Fund for such fees; and

- (d) may act by himself or his firm in a professional capacity for the Fund and he or his firm shall be entitled to remuneration for professional services as though he were not a director of the Fund.

The above summary is not necessarily a comprehensive list of all potential conflicts of interest.

A copy of the Accounts for each Class Fund made up to the relevant annual and interim accounting dates will be delivered in a similar manner to notices of general meetings (see section 11.3 (Notice of Meetings) in this Prospectus) within 5 months of the relevant annual/interim accounting dates and not less than 14 days prior to any general meeting of the Fund before which they are to be laid.

11.2 Annual General Meetings and Extraordinary General Meetings

The Fund will, subject to the Law, in each calendar year, hold a general meeting as its annual general meeting in addition to any other meeting in that year. Annual general meetings will be held at such time and place in the Island of Jersey as may be determined by the Directors. The Directors may call an extraordinary general meeting whenever they think fit (and will do so upon the request of a Custodian in accordance with the Articles).

Extraordinary general meetings shall be convened by the Directors on receipt of a Members' requisition or, in default, may be convened by such requisitionists, and in such manner, as provided by the Law. A Members' requisition is a requisition of Members holding at the date of the deposit of the requisition not less than 1 tenth of the total voting rights of the Members who have the right to vote at the meeting requisitioned.

11.3 Notice of Meetings

An annual general meeting or a general meeting called for the passing of a Special Resolution will be called by at least 14 days' notice. All other meetings will also be called by at least 14 days' notice, but a general meeting may be called by shorter notice if it is so agreed:

- (a) in the case of an annual general meeting, by all the Members entitled to attend and vote thereat; and
- (b) in the case of any other meeting, by a majority in number of the Members having a right to attend and vote at the meeting, being a majority together holding not less than 95% of the total voting rights of the Members who have that right.

The notice will specify the day, time and place of the meeting and the general nature of the business to be transacted and in the case of an annual general meeting, will specify the meeting as such. Subject to the provisions of the Articles and to any restrictions imposed on any Shares, a notice of a general meeting will be given to all the members, to all persons entitled to a Share in consequence of the death, bankruptcy or

incapacity of a Member, the Directors, the Manager, the Custodians, the Auditors and such persons as the Directors from time to time determine. Pursuant to the terms of the Articles, a notice of a general meeting may be given in writing, electronically or published on a website. Notice will be provided electronically if the recipient has notified the Fund of an email address to which notice can be sent. A notice may be published on a website provided the recipient is given separate notice of:

- (a) the publication of the notice on the website;
- (b) the place on the website where the notice may be accessed;
- (c) how it may be accessed; and
- (d) the place, date and time of the general meeting.

The Manager and the Auditors shall be entitled to attend and speak at any general meeting of the Fund.

11.4 Proxies

A Member entitled to attend and vote at a general meeting is entitled to appoint one or more proxies (who need not be a shareholder) to attend and vote at a general meeting instead of him/her. Notwithstanding the appointment of a proxy, a Member may attend and vote at a meeting or adjourned meeting. If a Member votes on any resolution a vote by his proxy on the same resolution, unless in respect of different Shares, shall be invalid.

The instrument appointing a proxy shall be in writing under the hand of the appointer or of his attorney duly authorised in writing, or if the appointer is a corporation, either under its common seal or under the hand of an officer or attorney so authorised. If the Directors so resolve, the Fund may accept an electronically submitted proxy pursuant to the terms of the Articles.

Any person (whether a Member or not) may be appointed by a Member to act as a proxy. A Member may appoint more than one proxy to attend on the same occasion.

The Directors may require the production of any evidence which they consider necessary to determine the validity of any appointment of a proxy.

A Member may revoke the appointment of a proxy at any time by notice to the Fund (or such person as is specified for that purpose in the notice of meeting or in the instrument of proxy issued by the Fund) duly signed in accordance with the Articles; but such revocation will not affect the validity of any acts carried out by the proxy before the Directors had actual notice of the revocation.

The instrument appointing a proxy and the power of attorney or other authority (if any) under which it is signed or a notarially certified copy of such power or authority, shall be delivered so that it is received by the Fund (or such person as is specified for that purpose in the notice of meeting or in the instrument of proxy issued by the Fund) not less than 48 hours before the time appointed for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote and in default the instrument of proxy shall not be treated as valid.

An instrument of proxy shall be in such form as the Directors may approve.

11.5 Quorum

Two persons entitled to vote upon the business to be transacted at a general meeting, each being a Member or its corporate representative duly authorised in accordance with the Articles or a proxy for a Member, shall be a quorum.

11.6 Voting

At any general meeting, a resolution put to the vote of the meeting shall be decided on a show of hands unless before or upon the declaration of the result of the show of hands a poll is demanded. Subject to the provisions of the Law, a poll may be demanded by:

- (a) the Chairman; or
- (b) at least two Members (or their proxies) having the right to vote on the resolution; or
- (c) a Member or Members (or their proxies) representing not less than one-tenth of the total voting rights of all the Members having the right to vote on the resolution; or

- (d) a Member or Members (or their proxies) holding Shares conferring a right to vote on the resolution being Shares on which an aggregate sum has been paid up equal to not less than one-tenth of the total sum paid up on all the Shares conferring that right.

In the case of an equality of votes, whether on a show of hands or on a poll, the Chairman of the meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote. If a poll is duly demanded, it shall be taken in such manner and at such place as the Chairman may direct (including the use of ballot or voting papers or tickets). A poll demanded on the election of a Chairman and a poll demanded on a question of adjournment shall be taken forthwith. A poll demanded on any other question shall be taken at such time and place as the Chairman directs, not being more than thirty days from the date of the meeting or adjourned meeting at which the poll was demanded. No notice need be given of a poll not taken forthwith if the day, time and place at which it is to be taken are announced at the meeting at which it is demanded. In any other case, at least 7 days' notice shall be given specifying the day, time and place at which the poll is to be taken. Subject to any special rights or restrictions for the time being attached to any class of Shares:

- (a) on a show of hands, every Member who is present in person shall have one vote;
- (b) on a poll, every Member who is present in person or by proxy shall be entitled to one vote in respect of each Management Share and each Participating Share held by him/her,

provided that the Directors, the Manager, the Investment Manager, the Custodians or any Associate thereof, shall not be entitled to vote any Shares registered in their name (or in the name of any nominee thereof) in respect of any matter in which they may have a material interest.

In the case of joint holders of a Share, the vote of the senior who tenders a vote whether in person or by proxy shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose seniority shall be determined by the order in which the names stand in the Register in respect of the Share.

A Member in respect of whom an order has been made by any court having jurisdiction (whether in Jersey or elsewhere) in matters concerning mental disorder may vote whether on a show of hands or on a poll, by his attorney, curator, receiver or other person authorised in that behalf appointed by such court and any such attorney, curator, receiver or other person may on a poll vote by proxy provided that such evidence as the Manager may require of the authority of the person claiming to vote shall have been deposited at the Office or at such other place as is specified in accordance with the Articles for the deposit of instruments of proxy not less than 48 hours before the time for holding the meeting or adjourned meeting at which such person claims to vote.

No Member shall, unless the Directors otherwise determine, be entitled to vote at any general meeting or at any separate meeting of the holders of any class of Shares in the Fund, either personally or by proxy, or to exercise any rights as a Member unless all calls or other sums presently payable by him/her in respect of Shares in the Fund of which he/she is the holder or one of the joint holders have been paid. On a poll, votes may be given either personally or by proxy.

11.7 Class Meetings

To every separate meeting of the holders of any Class of Participating Shares, all the provisions of the Articles relating to general meetings of the Fund or to the proceedings thereat (including those referred to above) shall, mutatis mutandis, apply except that the necessary quorum shall be two or more persons holding or representing by proxy one third of the issued Shares of the class (but so that if, at any adjourned meeting of such holders, a quorum as above defined is not present, those shareholders who are present shall be a quorum). The Directors may treat all the Classes of Participating Shares as forming one class if they consider that all such Classes would be affected in the same way by the proposals under consideration and that there would be no conflict between them but in any other case shall treat them as separate Classes.

11.8 Management Shares

Under the Law, if the Fund is to issue redeemable Participating Shares, it must have in issue a class of Shares which are not redeemable. The Management Shares, which are held by the Manager, fulfil this purpose and will also enable the Manager to deal efficiently with the ultimate liquidation of the Fund.

11.9 Modification of Share rights

The special rights attached to each Class of Participating Shares may be varied or abrogated:

- (a) with the consent in writing of a majority of the holders of the issued Shares of the Class; or
- (b) with the sanction of an Ordinary Resolution passed at a separate meeting of the holders of the Shares of the Class.

The rights attached to the Participating Shares shall be deemed to be varied by the creation or issue of any Shares (other than Participating Shares of any Class) ranking *pari passu* with or in priority to them as respects participation in the profits of the Fund or in a winding up or reduction of capital. The special rights conferred upon the holders of Participating Shares shall not be deemed to be varied by:

- (a) the creation, allotment or issue of further Shares of any class ranking *pari passu* therewith; or
- (b) the creation, allotment or issue of Management Shares; or
- (c) the creation, allotment, issue, redemption or purchase of Participating Shares of any Class; or
- (d) the conversion of Participating Shares of any Class into Participating Shares of another Class; or
- (e) the exercise by the Directors of their discretion under the Articles in relation to the determination of the Net Asset Value of the Fund and Class Fund(s) or, if the Fund shall be wound up, by the exercise by a Liquidator of his powers under the Articles.

11.10 Winding up

The Fund may be wound up by a Special Resolution in accordance with the Law. If the Fund is wound up, the liquidator shall, subject to the Law, apply the assets of the Fund in such manner and order as he thinks fit in satisfaction of creditors' claims. The liquidator shall, in relation to the assets available for distribution among the Members, make in the books of the Fund such transfers thereof to and from the Class Fund(s) as may be necessary in order that the effective burden of such creditors' claims may be shared between the holders of Participating Shares of different Classes in such proportions as the liquidator in his absolute discretion may think equitable having regard to the provisions of the Articles relating to Class Fund(s).

The assets available for distribution among the Members shall then be applied in the following priority:

- (a) first, in payment to the holders of the Management Shares of sums up to the amount paid up thereon out of the assets of the Company not comprised within any of the Class Funds remaining. In the event that there are insufficient assets as aforesaid to enable such payment in full to the holders of the Management Shares to be made no recourse shall be had to the assets comprised in any of the Class Funds;
- (b) secondly, in payment to the holders of each class of Participating Shares of any balance then remaining in the Class Fund relating to such class of Participating Shares, such payment being made in proportion to the number of Shares of that class held; and
- (c) thirdly, in payment to the holders of the Management Shares of any balance then remaining and not comprised in any of the Class Funds, such payment being made in proportion to the number of Management Shares held.

On a winding up, the liquidator may, with the authority of a Special Resolution and any other sanction required by the Law, divide among the Members in specie the whole or any part of the assets of the Fund and, whether or not the assets shall consist of property of a single kind and may for such purposes set such value as he deems fair upon any one or more class or classes of property and, subject as provided above, may determine how such division shall be carried out as between the Members of different classes of Members. The liquidator may, with the like authority, vest any part of the assets in trustees upon such trusts for the benefit of Members as the liquidator shall think fit and the liquidation of the Fund may be closed and the Fund dissolved but so that no Member shall be compelled to accept any Shares in respect of which there is liability.

11.11 Directors

Subject to the Law and the Memorandum and Articles and to any directions given by Special Resolution of the Fund, the business of the Fund shall be managed by the Directors who may exercise all the powers of the Fund in any part of the world. Subject to the Articles, the Directors have power to appoint any person to be the agent of the Fund for such purposes and on such conditions as they determine, including authority for the agent to delegate all or any of its powers. The Directors have appointed, on behalf of the Fund, the Manager to provide the Fund with management, secretarial, registrar and investment management services and the Custodians to act as Custodians of the assets of the Fund.

A Director may be removed, inter alia, by Ordinary Resolution of the Fund.

11.12 The Register
