Additional Risk Information

Where foreign securities are included in the portfolio there may be additional risks, such as potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, tax risks, settlement risks, interest rate and potential limitations on the availability of market information.

The risk rating seen on page 1 is designed to give an indication of the level of risk, measured by volatility, associated with this specific portfolio. In order to arrive at the specific risk rating of the portfolio in question, Melville Douglas measures the volatility of the fund, in the form of standard deviation, over a three year rolling period, and compares the result to internal risk parameters. Please note that these risk ratings are designed as a guide only.

Statutory Disclosure and General terms and Conditions

This document does not constitute an offer to buy or a solicitation of an offer to buy or sell shares of the Fund in any jurisdiction in which an offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer of solicitation and is for information purposes only. Subscriptions will only be received and shares issued on the basis of the current prospectus and prospective investors should carefully consider the risk warnings and disclosures for the Fund set out therein. The value of shares may go down as well as up and investors may get back less cash than originally invested. Performance is calculated for the portfolio, as well as that the individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Past performance is not necessarily a guide to future performance. An investment in the shares of the Fund is not the same as a deposit with a banking institution. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. Please refer to the prospectus for more details on the charges and expenses that may be recovered from the Fund. Shares are valued on a daily basis using 23:59 (UK Time) prices. Transaction requests received before 14h30 (UK Time) will receive the following valuation point unit price. This is an accumulation portfolio and does not distribute income. Telephone calls may be recorded. Apex Financial Services (Corporate) Limited, STANLIB Fund Managers Jersey Limited and Melville Douglas Income Fund Limited are regulated by the Jersey Financial Services Commission.

Prices are calculated and published daily and are available from the Manager on request.

Performance figures are calculated for the relevant class on a NAV basis.

Collective investment schemes are traded at ruling prices and can engage in borrowing and scrip lending. Collective Investment Schemes are generally medium to long-term investments.

An investment management agreement exists between the Fund, the Manager and Melville Douglas Investment Management (Pty) Ltd exists appointing Melville Douglas Investment Management (Pty) Ltd as the sole representative for the investment management functions performed in South Africa.
